Extremes Share Honors In 1939 Showings

The Tete-a-tete bench with umbrella (left) has its own table for cooling drinks. It is shown in our famous "Tree of Life" design which promises to become a classic. Shown here in shining white.

Dignity and versatility mark the fine design called "Feather" (right). Note the beautifully designed console table, which also serves as an extension at either end of a rectangular dining table. Shown in matt black.
